

## Hurricane Season Preparation

Review your hurricane plans, keep informed, and be ready to act if a warning is issued. Make sure you have the necessary supplies to keep you and your families safe. Educate yourselves by reviewing information from local, state, and federal organizations. Here is a good link to a Hurricane Preparation Guide:

## Volunteers Needed

The Community Emergency Response Team (CERT) program is about readiness, people helping people, rescuer safety and doing the greatest good for the greatest number. The Program educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. ## Lawn Maintenance

There are many beautiful lawns in our community. However, your beautiful lawns require care and maintenance. Proper lawn care ensures your lawn can withstand threats from lawn-damaging weeds and insects. Additionally, other benefits include protecting your home and property; raising your property value; and improving the community's overall appearance.
